

TempSure

What is Hydrafacial-TempSure?

TempSure Envi delivers radio frequency technology to gently heat your skin. Increasing the skin's temperature for a defined, therapeutic time will trigger a natural response for your skin to create new collagen. The new collagen fibers are tight, dense, and neatly organized giving you tighter, younger-looking skin. Treatments last about 30-60 minutes depending on the area being treated. There is absolutely no downtime allowing you to return to your normal activities immediately.

****Facial Membership - \$99 a month for 12 months
Your Choice of: 1 HydraFacial, 1 Pelleve` (Wrinkle Reduction), OR 1 PhotoFacial (Laser Treatment)**

SculpSure

What is SculpSure?

SculpSure is ideal for people with trouble spots, particularly those areas that seem resistant to diet and exercise. Treated fat cells are permanently eliminated and will not regenerate.

There is no downtime with SculpSure, so you can have the treatment during your lunch hour and return to work immediately. Patients may start to see results as early as 6 weeks following treatment as the body begins to evacuate the destroyed fat cells, with optimal results typically seen at 12 weeks.

Platinum Membership - \$3000

Gold Membership - \$5000

Body (pkg 4 sq. - \$1000)

Chin only - \$600 Evoke - \$500-\$1500

What is MonaLisa Touch?

MonaLisa Touch is a functional vaginal restoration treatment based on a special fractional CO2 laser, specifically created for the vaginal mucosa. MonaLisa Touch resolves estrogen drops in the vaginal tissue (typically occurring during menopause or after childbirth) by re-activating the production of new collagen and reestablishing the conditions that the vaginal mucosa once had.

MonaLisa Touch is now the most effective non-surgical and non-pharmacological solution for preventing and treating vaginal atrophy and its after-effects, which many women suffer from during menopause and after childbirth.
